Robert Detz
Recorder

I thought the Local 888 UFCW phone bills were high so I turned to Glacier Communications Inc. to reduce the phone bills and find a provider that would best fit our telecommunication needs.

Glacier Communications provided me with a telecommunications solution that reduced my local, regional, and long distance bills by 25%, over a \$300.00 per month savings. I was impressed by their knowledge of the telecommunications industry and their customer support. I continue to work with Glacier Communications and I recommend their telecommunication consulting services.
